Fund Manager's Comment: We believe investment themes have expanded in India since the new government has come into the power and focussed on development and governance through its various reform agenda i.e. Defence, Railways, and Make in India, Swachh Bharat, Digital India, Tourism, and softening crude beneficiaries and other specific initiatives. We are also enthused by the Governments effort to bring efficiency, transparency, governance in the business. Most of these initiatives have direct impact on the economy and companies in medium and growing sectors. We have positioned our portfolio across these themes and companies that will have sustainable growth in coming years. We see upside to these ideas to have much larger than some of the large well run efficient companies.

Fund Manager's Comment: Portfolio composition has decisively moved towards Infrastructure, Capital Goods, Engineering and Construction and related sectors. This is despite heavy composition of defensives in benchmark Index. This has caused increase of portfolio beta. Portfolio is underweight in FMCG, Pharma and IT sector. Re-alignment in the portfolio has been due to broad based recovery in the economy and consequent benefit to Industrial companies.

Fund Manager's Comment: True to its mandate, the portfolio maintained its character for infrastructure themes. The recent effort in pushing massive infrastructure project has induced positive sentiments in the sector. The significant policy reforms in coal, gas and power sector is providing significant boost to the sectors future outlook. Infrastructure remains an important pillar of India growth story and we have strong conviction of come back in near future. Sector has been under pressure since last few years due to multiple factors. We expect the sector to outperform in the coming times. There is no major change in portfolio construction.

Fund Manager's Comment: Capital goods and engineering sector expect to outperform on the back of revival in industrial activities. Administrative reforms in the coal and mining sector will have significant impact on the power and industrial sector. Scheme has allocated the assets accordingly. BFSI is expected to play an important role in funding the growth of corporate India. Lower interest rate regime should be significantly positive for NBFC companies in India. Softening crude oil prices will provide tailwinds for oil marketing companies in India. Scheme has allocated its resource across large and mid-cap companies

Fund Manager's Comment: Schemes is orient towards impending benefit of capex revival across banking, engineering and capital goods apart from new investment themes like port and ground logistics which are also expected to do well. Consumer internet is one of the fastest growing businesses in India. Investment themes have expanded in India since the new government has come into power and focussed on development and governance through its various reform agenda. We are also enthused by the Governments effort to bring efficiency, transparency, governance in the business. These initiatives are expected to have significant impact on the performance of Indian companies.

TAURUS DISCOVERY FUND - AN OPEN-END EQUITY FUND WITH MID CAP AND SMALL CAP FOCUS

SCHEME FEATURES

Investment Objective

The primary objective of the Scheme is to identify and select low priced stocks through price discovery mechanism, which would broadly include: • To capitalise on available opportunity on growth potential offered by undervalued penny stocks. • Such stocks being low priced and if dividend paying, decent dividend yield will give desired cushion in the volatile capital market. • Lower side risk is minimum in such investments. • Many of such cases where investment will be made, may be turnaround cases, therefore, greater potential for improvement in NAV.

Liquidity

Sale & repurchase on all business days.

Fund Manager's Comment: We believe investment themes have expanded in India since the new government has come into the power and focussed on development and governance through its various reform agenda i.e. Defence, Railways, and Make in India, Swachh Bharat, Digital India, Tourism, Namami Gange and other specific initiatives. We are also enthused by the Governments effort to bring efficiency, transparency, governance in the business. Most of these initiatives have direct impact on the economy and companies in medium and growing sectors. We have positioned our portfolio across these themes and companies that will have sustainable growth in coming years. We see upside to these ideas to have much larger than some of the large well run efficient companies.

EQUITY SECTOR ALLOCATION

Fund Manager's Comment: Portfolio continues to remain focussed on the large cap banks considering their resilience and consistent performance. The exposure has been spread wider to take advantage of the recent measures taken by the Government which have direct bearing on the beaten down stocks. The portfolio has also been tuned to the expected quarterly earnings trend.

Fund Manager's Comment: Currency leakage and heavy government cash balance kept the overnight rate up for major part of the month. CBLO, overnight rate, averaged out at 7.48% vs. 7.49% previous month. Three months CD closed the month at 8.25%, up 2bps from last month's closing. One year CD closed the month at 8.34%, up 6bps from last month's closing.

The Assets under Management (AUM) increased over previous month. Average maturity of the scheme decreased from previous levels as incremental flows were strategically placed at the shorter end of the curve. We intend to maintain a judicious balance between bank and non-bank assets taking into account the risks embedded in the various asset classes.

Face Value changed from ₹10 to ₹1000 w.e.f. 26th Apr., 2010. Historical NAV adjusted as per new Face value of ₹1000

Fund Manager's Comment: Demand supply dynamic for non-slz securities works in favour in the early months of a new financial year. Hence, spreads narrowed, albeit marginally at the longer end, however considerably at the shorter end as asset managers build portfolio for their rolled over FMPs.

The AUM of the scheme increased during the month. We continue to balance allocation between Bank and Non-bank assets to improve accruals. Average maturity of the scheme decreased from previous levels as incremental flows were strategically placed at the shorter end of the curve. We would continue to have a judicious mix of assets in order to deliver consistent optimal performance.

EQUITY SECTOR ALLOCATION

Fund Manager's Comment: Debt: The Reserve Bank of India (RBI), in its first bi-monthly monetary policy for fiscal 2015-16, kept the policy rate unchanged at 7.5%, but initiated tough measures to force banks to bring down their lending rates. 10 years benchmark yield remained fairly stable during the month. However domestic monsoon update and global shift in policy fears pulled down prices sharply in the latter half. It closed the month at 7.86% as compared to previous month's close of 7.76%.

The duration of the portfolio was increased in view of benign inflation trajectory. We will increase/decrease the maturity as and when we see the direction of the rates turn favourable for capital gains. We will continue with our strategy of trading in gilts as opportunity arises with a judicious mix of corporate bonds to enhance accruals in the scheme.

Equity: Portfolio has deployed near optimally into equities. Broad based recovery in the economy and potential outperformance of mid-cap over large-cap reflects in portfolio composition. Portfolio has witnessed inclusion of many new absolute ideas in the recent time.

Gold: Diminishing threat of Global crisis across two major continents in recent time saw shift of money towards risky assets. Gold is bearing burnt of this and witnessing softening of prices over the last few quarters. With continuing benign global economic environment it is unlikely to expect significant outperformance of Gold over equity and other asset classes. Portfolio tries to maintain the minimum required exposure to Gold and do not expect any change in near term.

Fund Manager's Comment: The Reserve Bank of India (RBI), in its first bi-monthly monetary policy for fiscal 2015-16, kept the policy rate unchanged at 7.5%, but initiated tough measures to force banks to bring down their lending rates. 10 years benchmark yield remained fairly stable during the month. However domestic monsoon update and global shift in policy fears pulled down prices sharply in the latter half. It closed the month at 7.86% as compared to previous month's close of 7.76%.

AUM of the scheme decreased vis-a-vis previous month. We will increase/decrease the maturity as and when we see the direction of the rates turn favorable for capital gains. We will continue with our strategy of trading in gilts as opportunity arises with a judicious mix of corporate bonds to enhance accruals in the scheme.

Tax Benefits

Dividend distributed by the Scheme (s) are free from Income - tax in the hands of Investors. The additional Income Tax on distribution of dividend by a debt fund (including money market or a liquid fund) to an individual / HUF shall be payable at the rate of 28.84%* and at the rate of 34.608%* to any other investor for FY 2015 - 16. With effect from 01/10/2014, Dividend Distribution Tax would apply on gross dividend instead of net dividend. Units of the Scheme(s) are not subject to Wealth-tax and Gift-tax. Unit holders are required to pay Securities Transaction Tax (STT) at the rate of 0.001% at the time of redemption /switch-out of units of an equity oriented fund.

*Including applicable surcharge, education cess and secondary and higher education cess.

Investors should be aware that the fiscal rules/tax laws may change and there can be no guarantee that the current tax position may continue indefinitely. In view of individual nature of tax consequences, each investor is advised to consult his /her own professional tax advisor.
