FROM THE CEO'S DESK

Dear Investor,

It's that time of the year when we recap those significant events that shaped the last financial year and which could shed some light on how they tend to influence the year ahead.

The global financial environment continues to be stable with a positive bias, despite the two major worrisome events that were enough to derail global growth: rising oil prices and the earthquake off Japan's northeast coast and the subsequent tsunami. Revolutions and the continuing unrest in the Middle-East and North Africa have elevated oil prices to new highs, from about \$37 a barrel in December 2008 to about \$115 now. Yet, despite the oil-price spike, many of the world economies have continued to demonstrate growth. Job growth in the world's largest economy has been steady and the rate of unemployment has slipped to less than 9%. In fact, the past year also saw developed countries display a considerable improvement in market performance. Many emerging markets have also shown strong domestic demand-led growth, particularly India and China. The euro area too is picking up well, with good domestic-growth economies. Overall, the consensus is that the global economy should clock a growth rate of around 3.7 per cent, up 50 basis points over last year.

Still, we cannot ignore negative surprises in store such as higher oil prices and spiraling commodity prices. With prices of many commodities, especially agricultural such as food grains and pulses, near all-time highs, countries like India are particularly vulnerable to slackening growth, brought on by creeping, continuing and intractable inflation. On the other hand, the euro zone is not completely out of the woods yet as the sovereign debt crisis continues to rattle many of Europe's smaller economies. Inflation generally tends to inch up, and could push the European Central Bank to raise interest rates in the latter half of this fiscal.

Meanwhile, the mutual fund sector, after weathering the Global upheavals and the Regulatory changes has emerged stronger and is poised to grow at a faster clip from here. In the Union Budget 2010-11, the finance minister proposed allowing foreign individuals who meet the Know-Your-Customer norms to invest in Indian equity schemes. It remains how useful would this be. For fund houses with a good performance track record of managing equity and debt schemes such as yours, FY 12 appears to be a promising year. As the stock markets continue to gain momentum this year since the attractiveness of Indian equities is still robust, expect a healthier performance by equity mutual funds in the year ahead. Besides, rising interest rates should help spike interest in debt funds in coming months.

At Taurus Mutual Fund, we had an exciting business year. We went on to add 3 new Funds to our fund basket, which included Taurus Nifty Index Fund, Taurus MIP Advantage and Taurus Dynamic Income Fund. Our existing Funds kept up consistency in their performance, which is a pure reflection of our investment philosophy and tight risk management processes. Fixed Income business attracted big volumes and played its role in our steady growth. Of course all of this would not have been possible without the unmatched efforts of my team. We added almost 40 more members across various levels in different functions, pan India and the team is still growing.

Lastly, congratulations to the Indian Cricket Team for bringing home the top cricketing trophy – the World Cup!

Warm regards

Yours truly,

A handwritten signature in black ink, appearing to read 'Waqar Naqvi'. The signature is fluid and cursive, with a distinct loop at the end.

Waqar Naqvi
Chief Executive

Fund Manager's Comment: Taurus Bonanza is a large cap fund, oriented to create long term wealth by investing in large cap companies. The investment philosophy is driven by the bottom up approach and focuses on the sustainable margin and visible growth. Our sectoral exposure remained broad based while we continue to take active bets in IT and Capital Goods, Banks and Consumer Discretionary Segments. Cash level is also maintained so as to take any opportunity.

EQUITY SECTOR ALLOCATION

TAURUS DISCOVERY FUND - AN OPEN-END EQUITY FUND WITH MID CAP AND SMALL CAP FOCUS

SCHEME FEATURES

Investment Objective

The primary objective of the Scheme is to identify and select low priced stocks through price discovery mechanism, which would broadly include: • To capitalise on available opportunity on growth potential offered by undervalued penny stocks. • Such stocks being low priced and if dividend paying, decent dividend yield will give desired cushion in the volatile capital market. • Lower side risk is minimum in such investments. • Many of such cases where investment will be made, may be turnaround cases, therefore, greater potential for improvement in NAV.

Liquidity

Sale & repurchase on all business days.

Tax Benefits

Tax-free dividends in the hands of investors, no Gift Tax, no Wealth Tax as per the present Income Tax Act.

Fund Manager's Comment: Liquidity situation hardened in March because of tax outflows. The accruals of the scheme increased because of rise in short term rates and incremental flows/maturities were redeployed at higher levels and we also maintained lower cash holdings. While the proportion of bank assets increased in March, we also increased the average maturity of the portfolio on anticipation of a sharp fall in short term rates. We continued to deliver consistent performance during the previous month. We would continue to have a judicious mix of assets in order to deliver a consistent optimal performance.

Fund Manager's Comment: Liquidity situation hardened in March because of tax outflows. The accruals of the scheme increased significantly during the month as the scheme swiftly moved towards high yielding short term papers and had lower cash holdings. We continued to maintain a judicious balance between bank and non bank assets taking into account the risks embedded in the various asset classes. We increased the average maturity of the portfolio down in anticipation of a sharp fall in short term rates in the near future. We continued to deliver consistent performance during the previous month. We would continue to have a judicious mix of assets in order to deliver a consistent optimal performance.

RISK FACTOR: Mutual Fund investments are subject to market risks. Please read the Scheme Information Document carefully before investing.

Fund Manager's Comment: The scheme witnessed a sharp spike in assets under its management in the month. We increased the average maturity of the scheme in anticipation of a sharp fall in short term rates. We intend to decrease the average maturity of the portfolio during the next month and expect the portfolio to be conservatively positioned in its average maturity profile. We would continue to have a judicious mix of assets in order to deliver a consistent optimal performance.

RISK FACTOR: Mutual Fund investments are subject to market risks. Please read the Scheme Information Document carefully before investing.

		Cash & Others	12.71
		Total	100.00

Fund Manager's Comment: The scheme maintained a high allocation to money market instruments having low maturity and thereby the portfolio had a low embedded volatility/risk. We will continue with our strategy of trading in gilts in the scheme when the opportunity arises. We will gradually increase the maturity profile of the debt portion of the scheme as we gain clarity on the direction of rates increase.
