SYSTEMATIC WITHDRAWAL PLAN

Systematic Withdrawal Plan is a facility which enables the unitholders to withdraw fixed sums from their unit accounts at periodic intervals. Any unitholder can avail of this facility subject to the terms and conditions contained in the SWP application form. A unitholder can opt for the facility at any time and receive regular monthly / quarterly payments from the account. The first withdrawal date should be atleast 7 business days after the date of SWP application. The valid dates for SWP are 1st, 5th, 10th, 15th and 28th. The minimum number of SWP instalments is 6 and the minimum SWP amount is Rs1,000/-.

The amount withdrawn under SWP by redemption shall be converted into units of the scheme at the applicable NAV and such units will be subtracted from the unit balance of that unitholder. In case the date falls on a holiday or falls during a Book Closure Period, the immediate next Business Day will be considered for this purpose. Taurus Mutual Fund may close an investor's account if the balance falls below Rs5000/- or an equivalent number of units, due to redemptions or use of SWP. This minimum balance amount needed for SWP may be altered from time to time at the discretion of the AMC. Unitholders may terminate the SWP or change the amount of withdrawal, but not below the specified minimum, by giving 15 days' notice to the Fund / R&T Agent. In case of Fixed Withdrawal, if the amount of instalment is more than the amount available in that account for redemption, the entire available amount will be redeemed and the SWP will terminate automatically. In such a scenario, AMC will have no obligation to communicate to the investor before the automatic termination of SWP. It will also terminate automatically upon the receipt of notification of death or incapacity of the unitholder. SWP is not available for investments under the lock-in period and pledge.

Applicable to all Special Products – in case of 3 consecutive rejections** of instalments (for SIP/OptiSIP/SWP/STP/iSIP/Opti-iSIP), Taurus MF reserves the right to Cancel/Reject all future transactions.

Taurus Opti SIP (Under Systematic Investment Plan)

It allows investors a chance to define a minimum and maximum installment amount and based on a simple formula*, a variable monthly installment amount will get calculated.

The Taurus *OptiSIP* installment will be calculated based on the portfolio value on T-5 days before the installment date. Irrespective of the formula* amount, the maximum and minimum investment will be limited by the maximum & minimum installment amounts as chosen by the investor initially.

i) Taurus *OptiSIP* Formula* -

A = Fixed Minimum Installment amount

B = Fixed Maximum Installment amount

$C = [(A * \text{Current no. of installment}) - \text{Account value of investments via } \textit{OptiSIP} \text{ as on 5th day (T-5) before the monthly installment date}]$

ii) Taurus *OptiSIP* Installment amount = C, provided it is not less than A or more than B, else it will be A or B respectively. The following tabular example will further clarify the above

Scenario	A (Fixed Minimum Instalment Amount) ₹	B (Fixed Maximum Instalment Amount) ₹	C (Opti SIP Formula Value) ₹	Opti SIP Instalment Amount ₹
1	5000	7000	4800.12	A = 5000
2	5000	7000	7200.45	B = 7000

*The Trustee reserves the right to change the terms and conditions of this facility at a larger date on a prospective basis. The Trustee reserves the right to withdraw the *OptiSIP* facility. All other terms and conditions of SIP facilities will remain unchanged.

Taurus Opti STP (Under Systematic Transfer Plan)

It will allow investors a chance to define a minimum and maximum transfer installment amount and based on a simple formula*, a variable installment amount will get calculated as per the frequency chosen by the investor. The *OptiSTP* installment will be calculated based on the portfolio value as on the transfer installment date. To follow such principle while investing the sector & industry will be excluded are Meat & Animal Products, Alcohol & Tobacco, Weapon & Gambling.

Portfolio Turnover

“Portfolio Turnover” is the term used by any Mutual Fund for measuring the amount of trading that occurs in a Scheme’s portfolio during the given period. All the schemes being open-ended schemes, it is expected that there would be a number of subscriptions and repurchase on a daily basis. Consequently, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. However, a high turnover would not significantly affect the brokerage and transaction costs.

The Fund will endeavour to balance the increased cost on account of higher portfolio turnover with the benefits derived thereof. A high portfolio turnover rate is not necessarily a drag on portfolio performance and may be representative of arbitrage opportunities that exist for scrips / securities held in the portfolio rather than an indication of a change in Fund view on a scrip, etc.

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV, subject to payment of Exit Load, if any.

It will be calculated using the following formula:

$$\text{Redemption Price} = \text{Applicable NAV} \times (1 - \text{Exit Load, if any})$$

Example: If the Applicable NAV is Rs. 10, Exit Load is 2% then redemption price per unit will be calculated as follows:
 = Rs. 10 * (1-0.02)
 = Rs. 9.80

For other details such as policies w.r.t computation of NAV, rounding off, procedure in case of delay in disclosure of NAV etc. refer to SAI.

I. INTRODUCTION

A. DEFINITIONS/INTERPRETATION

For detailed description please refer [Definitions and Interpretation.pdf \(taurusmutualfund.com\)](https://taurusmutualfund.com/Definitions%20and%20Interpretation.pdf)

B. RISK FACTORS

Schemes Specific Risk Factors

Risks associated with equity and equity related instruments:

Equity and equity related instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Schemes may be adversely affected.

Further, the Equity and Equity Related Securities are risk capital and are subordinate in the right of payment to other securities, including debt securities.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however, the Schemes' ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of a Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Schemes may invest in securities which are not listed on the stock exchanges subject to compliance with the ethical principles. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

Risks associated with transactions in units through Stock Exchange Mechanism:

In respect of transactions in Units of the Scheme through NSE and/ or BSE or any other recognized stock exchange, allotment and redemption of Units on any Business Day will depend upon the order processing/ settlement by NSE, BSE or such other exchange and their respective clearing corporations on which the Fund has no control. Further, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by NSE, BSE or such other recognized exchange in this regard.

Settlement Risk:

Different segments of the Indian financial markets have different settlement periods and such periods may be extended significantly by unforeseen circumstances. The inability of the Portfolio to make purchases in intended securities due to settlement problems could cause the Portfolio to miss certain investment opportunities.

Regulatory Risk:

The value of the securities may be affected by uncertainties such as changes in government policies, changes in taxation, and other developments in the laws and regulations.

Risk Associated with Ethical Investing:

Following the ethical principles will be an ongoing exercise and continue to evolve based on the experience gained by the Fund Management team. TAMCO may also seek guidance from identified ethical advisors for the interpretation of the principle. Taurus Mutual Fund shall interpret the same to the best of its knowledge and guidance. The scheme will only invest in securities which meet the ethical status of principle and fund management is required to review the various disclosures made by such companies and will also due diligence as part of the research process before investment. The fund manager will exit from the securities if they fail to comply with the ethics principles. This may restrict the ability of schemes to sell at a desired price.

C. RISK MITIGATION PROCESS

The Fund by utilizing a holistic risk management strategy will endeavor to manage risks associated with investing in equity and debt markets. The Fund has identified the following risks of investing in equity and debt instruments and designed risk management strategies to mitigate and manage such risks.

Risk associated with portfolio construction: AMC has incorporated adequate safeguards to manage risks in the portfolio construction process. Risk control would involve managing risk in order to keep it in line with the investment objective of the Scheme. The Fund Management team has adequate processes in place for identifying & analyzing the various risk ratios. Various checks have been put in place to adhere to the Investment Restrictions. AMC is using Miles Moneyware Fundware as Front Office System.

Market Liquidity Risk and investment in unlisted securities: Fund Manager would invest in those securities (subject to compliance with the Shariah/ ethical principles) that are expected to have more market liquidity. The first access to liquidity is through cash and fixed income securities. The investment in unlisted securities will be minimal and regularly monitored by the Investment Committee and Investment Monitoring Committee.

Quality Risk or risk of investing in unsustainable/ weak companies: Investment universe is carefully selected to only include high quality businesses.

Concentration Risk: Investment will be made as far as possible across the market capitalization spectrum and industries/sectors keeping the Investment Objective of the Scheme in view.

Procedure followed for Investment Decision & Risk Control Measures

Before making any fresh investment through primary market or secondary market, the research team prepares a detailed Research Report on each investment based on the fundamental as well as the technical analysis. The Board of Trustees in terms of SEBI's guidelines has approved the format of the Research Reports. The companies are identified for investment based on top down/ bottom-up approach as well as in-depth market analysis. Thereafter, the Research Report is discussed amongst the Investment Committee members comprising of the CEO, CIO, Fund Managers - Debt & Equity, Vice President – Operations and Research Analyst. The Investment Committee approves or rejects a stock. The stocks approved form a part of the stock universe. The Fund Manager then decides on the timing, quantity & price at which to buy or sell a share within the framework of the Investment Policy. The Fund Manager also takes into account the market conditions, investment/ redemption flows and other external factors. The reasons for subsequent purchase and sale of the same instrument are also being recorded. An Investment Committee looks into the following matters -

- a) Adherence to Prudential Investment guidelines
- b) Choosing the universe of stock for Equity investments.
- c) Addition/Deletion of stocks to the universe of stocks.
- d) Adherence to Derivatives trading guidelines.
- e) Risk management and risk mitigation issues.

The Investment Committee meeting is held twice a month.

The Board of TAMCO has also constituted an Investment Monitoring Committee comprising of two Independent Directors, two Non-Independent Directors and Managing Director of the Company. Investment Monitoring Committee Meeting is held every month and reviews Investments/ disinvestments made since last meeting, Research Reports etc.

The HIRE Act includes Foreign Account Tax Compliance Act (FATCA), which now forms a part of the US-IR Code. The regulations for FATCA have undergone revision since 2010 and the final regulations make the FATCA provisions effective from July 1, 2014. The objective of FATCA is to detect "US Persons", who evade US taxes by using financial account maintained outside US. The US persons are defined as those who have either US citizenship or US residency. The FATCA stipulates reporting on –</p> <ol style="list-style-type: none"> US taxpayers about certain foreign financial accounts and offshore assets. Foreign Financial Institutions (FFIs) about financial accounts with them of US tax payers or foreign entities in which US taxpayers hold substantial ownership interest. <p>FFIs (including mutual funds in India) are required to periodically report information on accounts of US persons, who maintain balances above a threshold. In the event of a default in the reporting of information on accounts of US taxpayers, a withholding of 30% of the payment made from US sources will be imposed on the recalcitrant account holders and non-participating Financial Institutions. SEBI vide its circular no. CIR/MIRSD/2/2014 dated June 30, 2014, has advised that Government of India and US Government have reached an agreement in substance on the terms of an Inter-Governmental Agreement (IGA) to implement FATCA and India is now treated as having an IGA in effect from April 11, 2014. TAMCO is classified as a Foreign Financial Institution (FFI) under the FATCA provisions and in accordance therewith, the AMC would be required to comply with the rules & regulations of FATCA, from time to time.</p> <p>In order to ensure compliance with FATCA and other rules / directions / notifications as may be issued by Government of India or other regulatory authority, Mutual Funds are required to institute a process to identify US Person investors and report the same.</p> <p>Applicants are required to refer to the "FATCA information" section in the application and mandatorily fill/sign off on the same.</p>

In order to combat the problem of offshore tax evasion and avoidance and stashing of unaccounted money abroad, the G 20 & OECD countries have together developed a common reporting standard (CRS) on automatic exchange of information (AEOI). On June 3, 2015 India has joined the Multilateral Competent Authority Agreement (MCAA) on AEOI. The CRS on AEOI requires the financial institutions of the 'source' jurisdiction to collect and report information to their tax authorities about account holders 'resident' in other countries. The information to be exchanged relates not only to individuals, but also to shell companies and trusts having beneficial ownership or interest in the 'resident' countries.</p> <p>In view of India's commitment to implement the CRS on AEOI and also the IGA with USA and with a view to provide information to other countries necessary legislative changes has already been made in Finance Act & by inserting Rules 114F to 114H and Form 61B to provide a legal basis for the Reporting Financial Institutions (RFIs) for maintaining and reporting information about the reportable accounts.</p> <p>Applicants are required to refer to the "FATCA/CRS information" section in the application and mandatorily fill/sign off on the same.
